

Career Skills/Knowledge - Short Reflection exercise

Quiz Instructions

This survey is a chance for you to look back at the career development activities you participated in this term, reflect on what you learned, and look ahead to what you'd like to do next.

It's also your chance to tell us about your experience with this class and to help me make it better for future students.

This class is designed to be very career skills / knowledge focussed, and so this short reflection will help you to capture these elements.

--

Question 1

This question is designed to help you identify what you learned and what you enjoyed learning, they may be different things!

- What have been some of the most important things you learned?
- What have been some of your favorite experiences and learning (and why)?

Question 2

This question is designed to help you identify what skills you have developed and to understand how you will use them and keep them fresh.

- Which concepts and skills do you feel the most confidence with now?
- How might you be able to apply what you learned in the future?

Question 3

This question is designed to help me do my job better.

- What concepts and skills would you like to have spent more time on?
- What was missing, or you'd advise me to do differently next time?

Question 4

This question will help you to identify some of the gaps you may need to tackle on your own, as well as focus on your strong points, which you will want to emphasize on applications and in job interviews.

- How prepared do you feel for your career? What does your skills gap look like and how could you fill it?
- What are the key skills and attributes you bring from this class and time at the SOJC?
